FOREWORD

Come along with us – we'll show you where
We journeyed four years in foul weather and fair,
The way seemed so long four years ago
Where the time went – we hardly know

Things we did that we had to do
Things we did that we wanted to do,
The good times we had – the bad times too
We've all put down in record for you.

The people with whom we've worked and played
People for whom after hours we've stayed,
Our pals and bosses along the way
Are pictured here in our book to stay.

Our hope is this as we journey with you
That we can provoke a smile or two
If not a smile, then maybe a frown
At some picture or prose that we have put down.

With Appreciation for her guidance, We, the Senior Class of 1965, dedicate this annual to Mrs. Dorothy P. Lindberg. As an advisor, as a teacher, but mostly as a friend, she has helped us throughout these four important years. For all that she has done for us, we wish to say "Thank you".

--E. J., S. R.

CREDENTIALS

We, the beginners, have learned to take a few tips from more experienced drivers. In determining how long the Highway Patrol has served this area, we came up with a whopping total of 437½ years! Being tactful we chose not to reveal certain confidential information, such as who has only ½ year, or who has been here for 44 years. Suffice it to say that they are international, having home towns ranging from Ishpeming to Pedro Miguel in the Canal Zone. Because they have dedicated so many years to us we have dedicated these pages to them and the credentials they have earned.

Carl W. Anderson, B.S., Northern Michigan University; teacher of physics, physical science, geometry; advisor to the Science Club

Marilyn S. Andrew, B.A., University of Michigan; M.A., Northern Michigan University; teacher of English; advisor to the Junior Class and to the Future Nurses Club

Norman Andrew, B.S., M.A., Northern Michigan University; teacher of American history, civics; advisor to the Hi-Y

George Annala, B.A., Northern Michigan University; teacher of algebra

Frank R. Bartol, B.S., M.A., Northern Michigan University; teacher of English; advisor for forensics

Natalia B. Broderick, B.S., University of Minnesota; teacher of French, English; advisor to the Modern Language Club and the Sophomore Class.

Clarice J. Brown, B.A., Northern Michigan University; teacher of English

Bruce E. Carlson, B.A., Northern Michigan University; M.A., University of Michigan; teacher of algebra, trigonometry, advanced mathematics; advisor to the Annual Board

Grace C. Dunn, B.A., Northern Michigan University; teacher of typewriting; advisor to the Commercial Club

Ebba A. Eklund, B.S., Northern Michigan University; teacher of stenography, business mathematics, business English; advisor to the Commercial Club

James C. Fowler, B.S., Northern Michigan University; teacher of world history, civics

Gladys N. Freethy, B.S., Northern Michigan University; vocal music director

E. Keith Gaboury, B.A., M.A., Northern Michigan University; guidance counselor

M. A. Haney, B.S., University of Wisconsin; M.A., University of Michigan; teacher of chemistry, physical science

Christine M. Johnston, B.S., Northern Michigan University; teacher of home economics; advisor to the Future Homemakers of America

Roy C. Ketola, B.S., Northern Michigan University; M.M., Michigan State University; instrumental music director

Dorothy E. Kinsman, B.S., Northern Michigan University; teacher of home economics; advisor to the Future Homemakers of America

John C. Leeman, B.A., M.A., University of Michigan; teacher of civics, world history, world geography

William R. Lehmann, B.S., Northern Michigan University; teacher of economics, social problems, advisor for Debate

Bruno Liimatainen, B.S., M.A., Northern Michigan University; teacher of machine shop, electricity

Dorothy P. Lindberg, B.S., Northern Michigan University; teacher of physical education, swimming; advisor to the Senior Class, the Cheerleaders, and the Water Ballet

Marvin J. Luoma, B.S., Northern Michigan University; teacher of general metals, welding, shop mathematics

Helen T. Malmgren, B.S., Northern Michigan University; teacher of general business, bookkeeping; advisor of the Student Council Finances

Bruno Marana, B.S., Wayne State University; teacher of physical education and swimming; coach to the varsity football team.

Loretta McDonough, B.A., College of Saint Teresa; teacher of Latin, English

Marion K. Mitchell, A.B., M.A., Northern Michigan University; teacher of English; advisor to the Future Teachers of America and for forensics

John G. Nichols, B.S., Northern Michigan University; teacher of woodshop

Tynne M. Ostlund, B.S., Northern Michigan University; M.A., University of Michigan; teacher of art

Donald M. Peterson, B.A., M.A., Northern Michigan University; teacher of geometry, algebra

Julie R. Peterson, B.S., University of Wisconsin; teacher of German, English; advisor to the Modern Language Club

Duane Phillips, B.A., Yankton College; M.A., University of South Dakota; guidance counselor; coach to the Junior Varsity Football Team and the Varsity Basketball Team

Ben Renz, B.S., M.A., University of North Dakota; teacher of English; advisor for forensics

Elizabeth Rogers, B.S., Northern Michigan University; M.S. in L.S., Western Reserve University; librarian

Oscar F. Strand, B.S., M.A., University of Minnesota; teacher of physical science, earth science

Vincent J. Villa, B.S., Northern Michigan University; M.A., University of Michigan, teacher of mechanical drawing

Richard L. Wachter, B.S., M.A., Northern Michigan University; teacher of biology; advisor to the Freshman Class and to the Science Club

CLASS MOTTO

"Let Us Go Forth to Lead the Land We Love."

CLASS SONG

Song From Moulin Rouge

It's soon now for us
That school will be over
The thrill and the fuss
Of our Special day.

It passes so fast
the fun and the frolic
But Memories will last
For all years to come.

Of our prom and our parties too
Of cheers and tears from white and blue
Of our good days and bad days too
When we did things we shouldn't do.

We'll always recall
In every tomorrow
Our own High School days
With both joy and sorrow.

For all of the fun
For all of the frolic
For all that you've done
We now truly thank you.

We're proud of the way
We grew with your guidance
As day after day
You all helped us along.

We are happy to realize
That all ideals that we've been taught
Will remain with each one of us
No matter where or what his lot.

We've grown up at last
And now we must leave you
We bid our adieu
Now with this our class song.

--- Carol Lindberg

P. Massed Orchestra 2, 3, 4; U. P. Massed Chorus 2.

LOUIS PINARD - Science

"It isn't work that worries him, it's women." Amateur Biologists' Club 2; Annual Board 4; Baccalaureate Chorus 4; Christmas Play 3; Class President 1; Football A 3, 4; Hi-Y 3, 4; Junior Lifesaving 2; Mixed Chorus 1, 2, 3, 4; Prom Committee 3; Student Council 4; Track 1, 2, 3, 4; U. P. Massed Chorus 3; Wolverine Boys' State 3; National Honor Society 4.

GAIL POIRIER - Business Education

"A sweet disposition - a sunny smile." Annual Board 3; Cheerleader 1, 2, 3, 4; Class Treasurer 3; Commercial Club 3, 4; Girls' Glee Club 1; Girls' Intramurals 1, 2; Hoop Girls 3; Mixed Chorus 1; Pep Club 1, 2, 3, 4; Prom Committee 3; Water Ballet 3; National Honor Society 4.

BRIAN POLKINGHORNE - Social Science

"Kindness in women, not their beauteous looks, shall win my heart." Football B 2; Modern Language Club 3; Track 3, 4.

LYNN PONTTI - Home Economics

"A smile is the same in all languages." Annual Board 2, 3, 4; Girls' Glee Club 1, 2, 3, 4; Girls' Intramurals 1; Mixed Chorus 1, 2, 3, 4; Modern Language Club 3; Pep Club 3, 4; Student Council 4; Future Homemakers' Club 1, 2, 3, 4; Baccalaureate Chorus 4.

JAMES RACINE - Industrial Arts

"In the spring a young man's fancy lightly turns to thoughts of love." Ski Team 2, 3, 4.

JOHN RADER - Science

"He's usually seen but seldom heard." Hi-Y 3, 4.

PETER RAHM - Science

"No ordinary man is he." Amateur Biologists' Club 2; Annual Board 4; Baccalaureate Chorus 3, 4; Christmas Play 3; Commercial Club 4; Junior Lifesaving 1; Prom Committee 3; Golf 4; Regional Science Fair 2; Mixed Chorus 1, 2, 3, 4; Modern Language Club 3, 4; Senior Class Play 4; Service Corps 2, 3, 4; Student Council 3; Track 4; Cross Country 4; Hi-Y 3, 4.

WILLIAM REDMAN - Social Science

"Nothing shows a man's character more than what he laughs at." Football B 1, 2; Modern Language Club 3; Future Teachers' Club 3, 4; Prom Committee 3; Senior Class Play 4; Service Corps 2, 3, 4.

DAVID REED - Science

"If school is liberty, give me death." Amateur Biologists' Club 2; Basketball B 1, 2; Football B 1, 2; Junior Lifesaving 2; Mixed Chorus 1, 2; Modern Language Club 2; Prom Committee 3.

LARRY RICE - Science

"Handsome is the word to describe this guy, with a mischievous twinkle in his eye." Amateur Biologists' Club 2; Baccalaureate Chorus 1; Basketball B 1, 2; Cross Country Team 3, 4; Hi-Y 3, 4; Mixed Chorus 1, 2; Modern Language Club 3.

SUZANNE RICHARDS - Science

"Never ready, always late, but she smiles, and so you wait." Amateur Biologists' Club 2; Annual Board 2, 3, 4; Christmas Play 3; Commercial Club 4; Forensics 2, 4; Future Nurses' Club 3; Girls' Glee Club 1, 2, 3, 4; Girls' Intramurals 1, 2; Hoop Girls 3; Mixed Chorus 1, 2, 3; Pep Club 2, 4; Prom Committee 3; Senior Class Play 4; Student Council 2; Baccalaureate Chorus 4; National Honor Society 4.

DAVID RICKSTAD - Science

"Full of fun and mischief too, doing things he shouldn't do." Amateur Biologists' Club 2; Band 3.

STEPHEN RING - Social Science

"The sweetest hours that ever I spent were among the lasses." Modern Language Club 2, 3; Mixed Chorus 1, 2, 3, 4; Track 2, 3, 4; Cross Country 3, 4.

DENNIS ROSTEN - Science

"I have been in such a pickle since I saw you last." Amateur Biologists' Club 3; Commercial Club 4; Future Teachers' Club 1, 2; Mixed Chorus 1; Service Corps 1, 2, 3, 4; Ski Team 3.

MARY ELLEN ROSTEN - Home Economics

"Happy am I, from care I am free." Girls Athletic Association 2.

DAVID RULE - Industrial Arts

"There's mischief beneath all outward calm."

ROY RUOHOMAKI - Science

"The fellow worthwhile is the one who can smile."

DAVID RUONA - Social Science

"I'd be bashful but the girls won't let me." Basketball B 1; Regional Science Fair 2; Track 1, 2; Basketball A (Student Manager) 2; Cross Country Team 3.

TERRY ST. AMOUR - Industrial Arts

"He does it with a better grace, but I do it more natural."

EDWARD ST. ANDRE - General

"I know my place, as I would they should do theirs."

FRANCES SARVELLO - Social Science

"Sometimes she's glad, somethimes she's sad; even mischievous but never bad." Annual Board 1, 2, 3, 4; Baccalaureate Chorus 4; Junior Christmas Play (Make up Committee) 3; Class Vice-President 2; Forensics 1, 2, 3, 4; Future Teachers' Club 2, 3, 4; Girls' Glee Club 1, 2; Girls' Intramurals 1, 2, 3, 4; Junior Lifesaving 2; Mixed Chorus 1, 2, 3, 4; Modern Language Club 4; Pep Club 1, 2; Prom Committee 3; Service Corps 4.

NORMAN SCARFFE -Social Science

"Cheer up, you can't get out of this world alive anyway." Mixed Chorus 1, 2.

SHARON SCHRANDT - Science

"Service is her motto." Amateur Biologists' Club 2; Annual Board 4; Commercial Club 4; Girls' Intramurals 1, 2, 3, 4; Hoop Girls 3; Pep Club 3, 4; Library Assistant 1, 2, 3, 4; Service Corps 1; National Honor Society 4.

ROXIE SMAIL - Science

"Some names signify true meaning." Amateur Biologists' Club 1, 2; Annual Board 4; Christmas Play 3; Debate 1; Forensics 1, 2, 3; Hoop Girls 3; Junior Lifesaving 2; Modern Language Club 3, 4; Pep Club 3, 4.

JAMES SODERGREN - Social Science

"I have never wasted time or lamp oil. . . or have I?" Band 1, 2, 3, 4; Christmas Play 3; Modern Language Club 4; Future Teachers' Club 1, 2, 3; Mixed Chorus 1; Orchestra 2, 3, 4; Prom Committee 3; Senior Class Play 4.

ROBERT SPENCER - General

"A good heart is better than all the heads in the world." Football A 2, 3.

BERNARD STANAWAY - Industrial Arts

"Not afraid of work, but not in sympathy with it." Service Corps 1, 2, 3, 4.

CAROL STEPHENS - Social Science

"O sleep! it is a gentle thing." Amateur Biologists' Club 2; Annual Board 3; Art 1, 2; Christmas Play 3; Commercial Club 4; Girls' Glee Club 1, 3; Girls' Intramurals 1, 2, 3, 4; Mixed Chorus 2, 3, 4; Pep Club 3, 4; Prom Committee 3; Water Ballet 4; Baccalaureate Chorus 4.

CATHERINE STURM - Science

"Better late than never." Annual Board 3, 4; Baccalaureate Chorus 4; Commercial Club 3; Future Nurses' Club 2, 3, 4; Girls Glee Club 2, 3, 4; Girls' Intramurals 1, 2; Hoop Girls 3; Junior Lifesaving 2; Pep Club 3, 4; Water Ballet 4; Prom Committee 3.

PAUL SUNDBERG - Science

"He speaketh not, and yet there lies a conversation in his eyes." Amateur Biologists' Club 2; Band 1; Mixed Chorus 1, 2, 3; Commercial Club 4; Modern Language Club 3; Prom Committee 3; Ski Team 3, 4; Service Corps 1, 2; Golf 4.

CAROL ANN SYRJALA - General

"Her voice was ever soft, gentle and low, an excellent thing in woman." Commercial Club 3,4; Modern Language Club 3; Girls' Intramurals 4.

JACALYN TONKIN - Social Science

"As idle as a painted ship." Amateur Biologists' Club 2; Annual Board 3; Future Nurses' Club 3; Girls' Glee Club 1,2,3; Girls' Intramurals 1,2,3,4; Mixed Chorus 1,2,3,4; Regional Science Fair 2; Service Corps 4; Ski Team 2,3,4; Water Ballet 4; Baccalaureate Chorus 4; Senior Girls' Ensemble 4; Regional Science Achievement Award 2.

JACK TONKIN - Science

"I try not to let my studies interfere with my education." Amateur Biologists' Club 2; Basketball B 1, 2; Football A 4; Football B 2; Mixed Chorus 1,2; Modern Language Club 3; Senior Lifesaving 2; Service Corps 1,2,3,4.

KAREN TREMETHICK - Science

"She is just the quiet kind, whose nature never varies." Amateur Biologists' Club 2; Annual Board 2; Future Nurses' Club 3,4; Girls' Glee Club 1,2,3,4; Hoop Girls 3; Junior Lifesaving 2; Baccalaureate Chorus 4; Library Assistant 4; Pep Club 2,3,4; Future Homemakers' Club 4.

MICHAEL TUNTERI - Social Science

"Stately and tall, he moves through the hall." Basketball B 1; Basketball A 2,3,4; Football A 1,2,3,4; Track 1,2,3,4.

CAREY TURINO - Home Economics

"Oh my love is like a red, red rose." Annual Board 1,2; Art 1,2; Future Teachers' Club 3,4; Future Homemakers' Club 1,2; Girls' Glee Club 3,4; Girls' Intramurals 1,2,3; Mixed Chorus 1,2,3; Modern Language Club 3; Pep Club 2,3,4; Prom Committee 3; Student Council 4; Baccalaureate Chorus 4; Junior Lifesaving 2; Senior Girls' Ensemble 4.

STEVEN TURINO - Science

"Kind of shy, but an all around good guy." Class President 4; Football A 3,4; Football B 2; Modern Language Club 3; Student Council 4; Wolverine Boys' State 3; National Honor Society 4.

ARLENE TUTTILA - Social Science

"As merry as the day is long." Commercial Club 3; Girls' Glee Club 1,2; Girls' Intramurals 1,2,3; Mixed Chorus 1,2; Modern Language Club 3; Water Ballet 4; Senior Lifesaving 2; Future Homemakers; Club 1,2,3; Pep Club 4.

MARY ULRICKSON - Social Science

"She has the finest and worthiest quality -- patience." Annual Board 3, 4; Commercial Club 3, 4; Future Nurses' Club 3; Hoop Girls 3; Modern Language Club 3; Senior Class Play (Make-up Committee) 4; National Honor Society 4.

ROSE VAHAMAA - Home Economics

"Dark, happy, yet shyly quiet, she finds the best in everything." Future Homemakers' Club 2,3; Girls' Intramurals 4.

FRANCIS VALELA - Science

"Good manners reflect good morals." Art 1,2,3,4; Modern Language Club 3,4; Senior Class Play 4.

EDWIN VILLENEUVE - General

"I don't see the use in drawing hard and fast rules, you only have to break them." Basketball B 1; Mixed Chorus 1.

VIRGINIA VOELZ - Science

"Mercury hovers over her fingertips." Amateur Biologists' Club 2; Band 1,2,3; Orchestra 1,2,3; Forensics 2; Future Nurses' Club 3,4; Girls' Glee Club 4; Mixed Chorus 1,2,3,4; Hoop Girls 3; Modern Language Club 3; Pep Club 4; Solo and Ensemble Festival 2; U.P. Massed Orchestra 2; Baccalaureate Chorus 4; Band Clinic 1.

PAUL WAKKURI - Science

"Men of few words are the best men." Amateur Biologists' Club 2; Modern Language Club 3,4.

WAYNE WEHMANEN - General

"How well dost thou now appear to be a chip off the old block." Forensics 3.

DONALD WELSH - Science

"Sometimes I sit and think, other times I just sit." Football B 1,2; Football A 3,4; Amateur Biologists' Club 2.

CLARENCE WILLEY - Science

"Give us a lad whose life is one perpetual grin." Football B 1, 2; Football A 3, 4; Track 2, 4.

DAVID WILLIAMS - Social Science

"I'm not lazy, just don't feel like working." Amateur Biologists' Club 2; Christmas Play 3; Debate 3; Football B 2; Foreniscs 4; Junior Lifesaving 2, 3; Mixed Chorus 1, 2; Senior Class Play 4; Service Corps 1, 2, 3, 4.

JOAN WILLIAMS - Home Economics

"A giggle a day keeps the doctor away." Girls' Intramurals 2,3,4; Library Assistant 4; Future Homemakers' 2.

NANCY WILLIAMS - Social Science

"Sometimes given to serious thoughts, but usually full of mischievous plots." Amateur Biologists' Club 2; Girls' Glee Club 1,2,3,4; Girls' Intramurals 1,2,3,4; Hoop Girls 3; Junior Lifesaving 2; Mixed Chorus 1,2,3,4; Modern Language Club 3; Pep Club 3,4; Prom Committee 3; Baccalaureate Chorus 4; National Honor Society 4.

KAREN WINDSAND - Social Science

"Small of stature, but large of heart." Amateur Biologists' Club 2.

CHERYL YOUNG - Science

"To see her is to love her for nature made her what she is." Amateur Biologists' Club 2; Annual Board 1,2,3,4; Girls' Glee Club 4; Girls' Intramurals 1,2,3,4; Hoop Girls 3; Junior Lifesaving 2; Mixed Chorus 3,4; Modern Language Club 3; Orchestra 1,2,3,4; Pep Club 3,4; Regional Science Fair 2; Student Council 3,4; U.P. Massed Orchestra 2,3,4; Baccalaureate Chorus 4.

GARY LYNN - General

"What wealth he finds in solitude."

COMMENCEMENT WEEK PROGRAMS

BACCALAUREATE SERVICES

ISHPEMING HIGH SCHOOL
Ishpeming, Michigan

High School Auditorium

Sunday, June 6, 1965
3:00 O'Clock P.M.

Processional. . . . . .
(Accompanist: Ann Toupin)
Hymn. . . . . .
Come Thou Almighty King
Invocation. . . . . .

Trombone Soloist:
Jane Gumerson
Accompanist: Carole Carlson
"THE BLIND PLOUGHMAN"..
Mixed Ensemble
Accompanist: Carole Carlson
PRESENTATION of DIPLOMAS
Superintendent, W. C. Peterson
CLASS SONG. . . . . .

PRESIDENT'S ADDRESS

How many times have we been told that the years of high school are the golden years of our lives? Yet most of us can remember hoping and waiting for this commencement week to begin. Now that we are ready to graduate we realize that the life we are to face in the future will be quite different from the one we are about to leave. For many of us this new world will be college, for some the service, and for others the working world and the establishment of homes and families of our own. These unexplored and strange worlds will have many new challenges and problems which every one of us will have to face. But what actually will be the biggest problem we will have to contend with?

Let us step back and take a logical look at the situation. In order to have a problem we must have a cause of the problem and a conflict. What will we be coming into contact with most often in our travels through life? If you think about this for a while the answer becomes quite obvious. We aren't going to be facing a new problem at all, but the same old problem and the same old conflict -- people. It's been said, "The trouble with man is man," and I believe it's time -- past time -- that we Americans pause for a moment in our busy rush and ask ourselves just where we're headed. People of today are forever in a hurry and few people take time to stop to help his neighbor. The majority of people in our country have become so wrapped up in their own lives and daily problems, that they actually do not realize the term social responsibility exists. The "every man for himself" policy is the one which seems to prevail for most people. The result of this hustle and bustle is social apathy. Defined loosely, social apathy is a lack of willingness to take responsibility or become involved with other human beings. This "disease" -- if I might call it that -- appears to be the typical attitude of the American citizen today.

Who cares? Seldom in our history has a question so un-American seemed so necessary. Obviously, millions of Americans do care -- witness the swollen ranks of volunteer charity workers, the battlers for civil rights, and the numerous civilian heroes. But many Americans do not care, not, at least, enough to act. Many explanations are being offered for their failure to respond. None very pleasant. One is that Americans fear the costs of involvement. Getting involved means being a witness. You lose time and pay by appearing in court. Fear of involvement is sometimes the fear of hurting someone. Too often it is the fear of getting hurt. Thus Americans are sometimes loath to testify at trials or serve on juries.

In Philadelphia on March 6, 1965, six men stood by without interfering while a gang of teenagers attacked a sixteen-year-old girl and dragged her, screaming and struggling, down a subway track. A twenty three year-old Naval Air Reservist who went to the aid of the girl was beaten savagely but managed to break away and call police.

In the Brooklyn area of New York City, on March 12, 1965, a seventeen-year-old youth was killed on a subway train before at least ten witnesses. Police said his assailant repeatedly drove a knife into the youth's head with such force that the skull was fractured. No one came to the youth's aid, and all witnesses left before police arrived.

These are just a couple of examples of how people are becoming more and more apathetic in regard to helping their fellow human beings.

But even more common than this is the way in which people avoid so many everyday opportunities to act as truly social beings. All of us, with no exceptions, at one time or another have refused a favor to a friend or passed on a responsibility which we ourselves should have faced. Why do we do these things? In almost one hundred per cent of the cases the reason is that we would be depriving ourselves of some pleasure or leisure time by accepting these responsibilities. With more demands than we can manage, we are tempted to ignore them all or to make excuses that command neither our good will nor our ability and energy. It is easier to make a donation than to give of ourselves. We are like distant cousins whose actual interest in each other is two or three times removed. The tragedy of this reaction is that we rob ourselves of life's greatest opportunity -- self-giving.

What is needed to remedy this is community feeling -- when inhabitants have a central feeling of belonging. But, since the tendency is away from the kind of life in which community feelings can flourish, we must rely more and more on the individual's will to act.

Thus we are right down to the actions of people themselves. The need for brotherly compassion is one of the enduring needs of human society. Seldom has its lack been felt more acutely than today.

What makes people act? The self-image is what propels one -- if one has it. One gets it from the expected sources -- father and mother, primarily; teacher and preacher as well. If that self-image is strong enough, it makes you confront events you would rather avoid. In the end, the man who responds is the man who feels something for others. Thus, the way in which we will act and have acted has already been determined to a large extent by our parents and teachers.

Our training as responsible citizens had its beginning in our homes. True responsibility does not begin by ignoring obligations close at hand nor does it stop with them. It has been developed through our years of grade school and especially through the past four years of high school.

During our years of high school you parents and teachers have tried to ready us to accept our responsibilities, and everyone of us, whether we realize it nor not, is a more responsible citizen now than when we entered.

Many of the problems facing this country today will not be solved in your lifetime, but in ours. In my opinion, this class of '65, whom I represent, is well prepared to face them. So as we take our first unsteady step into our new worlds, we will be able, thanks to you parents and teachers, to stand up to the tasks we will come up against.

--Steven Turino

VALEDICTORY: Leadership For Tomorrow

On January 25 of this year, the world mourned the death of a man frequently called "the greatest Englishman" and "the greatest man of the century." His name was Winston Churchill. He was a forceful orator, a wise statesman, and an untiring leader -- a man who inspired respect, admiration, and affection from everyone. In the days immediately following his death, leaders of countries all over the world paid homage to this beloved man.

The fact that Winston Churchill was a great leader is indisputable. He rose to power at a time when the world faced a great crisis. He took a position for what every freedom-loving person believes to be right and held that position against almost unsurmountable odds. His "V for Victory" sign inspired Englishmen the world over to rally with hope in that nations darkest hour -- World War II. For a time, Churchill and England, almost alone, fought to defend the principle that government is founded to protect the individual person in his quest of life, liberty, and pursuit of happiness. In this courageous and uncompromising stand for this intangible but very real principle lies the greatness of Winston Leonard Spencer Churchill.

We are not alone in our admiration of this great man. People all over the world have expressed their high regard for his achievements. The members of Parliament express "an unbounded admiration and gratitude for Churchill's services to Parliament, to the nation, and to the world." Premier Levi Eshkol of Israel stated, "Mankind as a whole owes an inestimable debt to Winston Churchill." Former President Dwight D. Eisenhower -- "his indomitable courage, his indestructible faith in the society of free nations and the dignity of free men typified our way of life." Chancellor Ludwig Erhard of West Germany -- "His service to his fatherland and to the Free World will assure him a high rank in world history." Churchill was a leader but Churchill used his talents and abilities to service humanity, in fighting the forces which would not only allow but effect discrimination, in protecting the rights of every human being, in this, lies, Churchills greatness.

The 20th century has produced another outstanding leader. His name is equally well-known to all of you but the mere mention of it connotes fear, hatred, and distrust. The name -- Adolf Hitler.

There is no doubt that Hitler was a great leader. He showed such accurate perception and skillful manipulation of political situations that he was called a political genius. He too was a powerful speaker and a genius at organization. He possessed a magnetic personality and his determination to pursue his objective was equal to Churchill's stubborn resistance. But consider the epitaphs which accompany his name -- "perpetrator of crimes against humanity," "destroyer of human rights," and "that evil man."

What causes two men, both potentially great to leave behind such contrasting memories of their careers? With Hitler the motivating force was self. His almost insane desire to reshape the world according to his own ideas pushed him beyond the boundaries of human decency. Churchill's motivating force was service. His desire was to protect human liberties at home, and to extend the rights of free men to all people. His devotion to this task brought him the acclaim of the world.

The United States is now in a very crucial period of history. In at least three areas the leadership of dedicated men will greatly influence the future of our country. The problems of race relations which have commanded so much of our attention in recent months can be solved only under the guidance and leadership of dedicated men who place the establishment of equality and justice under law, above their personal concerns.

The problems created by the discovery and development of atomic power are equally vital to all of us. Here again leaders who are concerned with acquiring power and personal gain can force the world to the brink of destruction. If we are fortunate enough to be guided by leaders dedicated to servicing mankind, atomic power can be used as a benefit to all of us.

Perhaps our most pressing problem is the struggle to avoid war without sacrificing any of the principles upon which our country is established. We are all aware of the possibilities of another war and will do anything to avoid such a conflict. However, the ultimate decision will be made by our national leaders. The leadership of these men will determine whether we live in constant fear of global war or in peace and harmony with the rest of the world.

Now how does all this affect us. High schools like ours all over the U.S. are tonight graduating hundreds of young men and women into this world of problems and conflicts. From these graduating classes will come the leaders who will try to solve our problems. We know that some people are born with inherent qualities of leadership but the environment that the person grows up in determines whether that person becomes an Adolph Hitler or a Winston Churchill.

Looking back over the twelve years I have spent in school, I realize that the schools have done three things to help us develop the kind of leadership we need so badly. First, they acquaint us with, and instill in us, the principles of freedom and democracy upon which this nation is founded. Through our study of history we learn how men have struggled to achieve these ideals, and we learn how important they are to us today.

Secondly, we are constantly brought face to face with examples of the kind of leaders we admire and emulate. As children, we met men and women who served as sponsors of scouting activities, youth groups, and church clubs. They provided not only worth while activities for young people, but more important, helped to develop by their leadership the kind of people our community and country needs. In high school, we have worked outside the classroom with teachers and coaches whose example helps us formulate our own ideas of leadership. Through means of mass communication such as the press, television, and radio, we are acquainted with national leaders in politics, in sports, in the fields of science and discovery. We note the characteristics of courage, determination, and self sacrifice that these leaders display.

And finally, through the experiences the school offers us we begin to develop in ourselves the qualities which will help us become leaders. We are given the opportunity to participate in a wide variety of extra-curricular activities from speech to sports. While teachers and coaches provide group leadership, the students are expected to control their own actions. On the basketball floor there are five men, one of

whom is the captain. But each of the players must be ready to take the initiative when the play demands it, and to think constantly of how he can best serve the team. The slip takers, the student librarians, the laboratory assistants, the students who serve on the student council are giving freely of their time to help our school operate more smoothly. No one is encouraged to become a leader in any of these activities for the glory it will bring him, but rather he is urged to use his abilities in service to his school.

And so, the class of 1965 has chosen as its motto the words of the late President John F. Kennedy, "Let us go forth to lead the land we love." We are secure in our knowledge of what we believe in. We have been inspired by the examples of dedicated men and women all around us, and encouraged by the experiences our schooling has provided. As we leave our school tonight it is with the sincere hope that we will be the kind of leaders our country needs; not leaders dedicated to self-glory but leaders whose lives will be remembered for their service to the fellowmen.

--Jeffrey Decaire

SALUTATORY: Service In Our Changing Society

In 1937, during a speech following his coronation, King George VI of England said, "The highest of distinctions is service to others." Today his words seem to have been forgotten by many people, although they have provided the basic motives and goals of many truly great men. For example, the late John Fitzgerald Kennedy was an extremely wealthy man. If he had desired, he could have lived a comfortable, uncomplicated life. Instead, he chose to serve his country. He accepted the world's biggest headache as his task. . .the Presidency of these United States. Mr. Kennedy himself spoke of service when he said, "Ask not what your country can do for you, but what you can do for your country."

The history of the United States has been based on service and self-sacrifice. When the Revolutionary War threatened, people from all over the colonies rallied to the cause. They thought not of themselves, but of the country as a whole. When asked to fight, they didn't think of reasons why they shouldn't. . . they fought. This country won its independence in that war because of the leadership of men like Thomas Jefferson, Patrick Henry, and George Washington. Washington is one of the best examples of sacrifice for service. He had commanded our forces during the war and had served as our first President. When his term as Chief Executive had expired, he went to his home in Mount Vernon to retire. While there, he was asked to serve a second term. . .he did. The remarkable thing about this self-sacrifice is that throughout our history it has been the rule rather than the exception.

You may say, "Well that's fine, but what recognition or reward does the common man get?" I can answer that by saying, "What good is a general without an army?" As in many other cases, the value and success of the entire idea lies in the coordinated efforts of countless people. Without the everyday services of the ordinary man, there would be no heroes or advancement of any kind.

This, I believe, is the thing that many people have forgotten. They think that someone else will do the job in the event that they don't. If we are to correct this problem, we must first recognize the basic causes of it.

In our modern world, much emphasis is placed on the word "specialization." We are constantly bombarded from all sides with this word. Radios blare: specialists needed, and ads read: advancement through specialization. In colonial America, this word was virtually unknown. A man wouldn't specialize because there was very little need for any such special services. He relied almost solely on his own talent, brains, and dexterity. Therefore, since the people knew a little about everything, but not a great deal about any one thing, they were willing to help one another. When there was a barn to be built, the man didn't call in a carpenter. Instead, his neighbors helped him in putting it up. Unfortunately, this practice has been gradually disappearing from our lives.

In our twentieth century Atomic Age, the role of man has undergone some definite alterations. Most men of today are educated and trained for one specific job. This specialization is necessary, of course, but it is harmful in that the bulk of the work is centered around the performance of a routine operation. With this routine, there often comes a loss of pride in one's work. Too often, this leads not only to disinterest in one's own life, but into apathy toward others.

Family relationships of today are another contributing factor in the decline of true service to others. Not too long ago, when there were fewer individual recreational activities, many families spent the week-end at the beach or on a short vacation trip. With today's tremendous growth of clubs, youth groups, and recreational facilities, the sight of an entire family together is almost becoming a rarity. This lack of family communication and contact is very alarming and must be observed as a warning. If the members of a family tend to shy away from being together and helping one another, what will be their attitude toward complete strangers?

This lack of service from so great a number of people is undoubtedly disturbing, but the way in which countless others do serve is equally so. A gas station attendant many say, "I serve people all day long. I'm doing my part." He believes that he is doing a service, but serving for monetary reward only cannot be considered as true service. The reward for true service should be felt inside a person, not inside his wallet. A doctor is serving only when he is a doctor first and a man earning a good salary second. I believe that a man who does something without a sincere motive is losing the value and satisfaction that can be gained from it.

There are those who believe that true service is a thing of the past in this changing society of ours. They think that people will get aid from others only through the payment of money. However, as in all cases, there are bright lights to illuminate the shadows. Men like Dr. Albert Schweitzer, Dag Hammarskjold, and John Fitzgerald Kennedy have turned on these lights, and

others will serve to help keep them on. Today, Peace Corps volunteers are working all over the world, for pennies a day, to cure the sick, to feed the hungry, and to develop the sadly underdeveloped countries of the world. Social workers spend their lives trying to improve the slum areas, and to raise people out of the gutter and into a more productive life. Teen-agers give up their summer vacations to work at camps for underprivileged and crippled youngsters. These are the groups and individuals that serve as the examples for others to follow. World peace and prosperity will be achieved only through the combined efforts of all the people of the world.

Complancency and apathy in our lives can be driven out by service to others. One night a week at a church meeting, a fund-raising campaign, or a boys' club may provide the break in monotony that is so desperately needed. By helping others we can also help ourselves. The satisfaction gained by making a dejected person smile cannot be expressed in words.

In these times of tumult and turmoil, you, as well as we who are graduating here tonight, may find, through service, a reason for being placed on this earth.

--Robert Mantyla

HISTORY AND STATISTICS

Several months ago I was called upon to give a physical examination to the Class of 1965. I was told that they had all applied for graduation, and I was to examine them thoroughly to make sure that they qualified.

As in all other routine examinations, the first thing I did was to study the case history of the class to get an idea of its condition. The results of my study were very interesting. I found that 85 of the class members are females and the other 107 are males. They range in age from just turned 17 to 20, and 51% were born right here in Ishpeming where 131 have lived all their lives. I discovered that if they were standing on top of each other, the column they formed would be 1,127 feet high, or 143 feet higher than the Eiffel Tower, quite a stretch compared to their mere 233 feet when they were born. Their weights range from 82 pounds to 195, and one of the students weighed only 3 lbs. 12 oz. at birth. In their average 17 years, the students have had 139 small pox vaccinations, 172 tuberculin tests, 66 chest X-rays, and 18 major operations. One hundred twenty-six of them have had mumps, 176 have had the measles, 41 have had appendectomies, and 46 have had tonsils removed. Several hospitals have at some time taken care of 121 of the students, while only 3 have never been to a doctor.

After studying this case history very carefully, I proceeded with the examination. Naturally, the most logical place to start would be at the top -- the head. In the upper part of the head I found an organ known as the brain. In order to examine this brain more thoroughly, I enlisted the help of Dr. Ben Casey, because I didn't specialize in neurosurgery. Dr. Casey discovered that formal education of the brain began 13 years ago when the class started kindergarten at 33 different schools in 20 different towns. As we were examining some of the brain cells, we discovered an enormous number of synaptic connections, whatever they are, which indicated that this class had engaged in numerous intellectual activities. These synaptic connections were responsible for over 1,327 of all the A's received in high school, causing 42 students to be on the Honor Roll at one time or another and 53 students to receive Honorable Mention. Only 11 students have never had a C or lower, but 56 of the students have at some time been sent to the office for discipline. We discovered that the brain was partly responsible for the fact that 41 class members received school letters and 50 have received an award for art, science, forensics, or sports. As we examined another part of the brain, we found areas in which there were strange complexes of neural synapses. These gave evidence of their education in specialized fields, such as music, dancing and art. Sixty-four students have had some kind of music lessons for an average of 4 years, 19 students have had dancing lessons, and 21 of the students have taken art in high school.

During the course of our neurosurgery, Dr. Casey and I discovered one area of the brain in which the neurons were still rather unconnected. That area involved making plans for the future. We discovered that 125 of the class members are planning on interweaving some of those unconnected brain cells in college. Eight are going to a nursing school, 19 to a trade school, and 5 to a business school, while service in one of our armed forces is the goal of 35 students. It was difficult to tell what the class' occupation will be because 43% of the students have not yet decided on a definite vocation. Dr. Casey and I have decided that since 233 of their parents graduated from high school, and 34 have received college degrees, this class, along with their 257 brothers and 253 sisters, will carry on with the work already begun and help along the process of change toward higher forms of life.

After thanking Dr. Casey for his assistance, I then proceeded to examine the rest of the head. In my examination of the eyes, I discovered many cases of astigmatism, myopia, and hyperopia, not to speak of eye strain, which is responsible for the fact that 76 students wear glasses, while two students use contact lenses. Imprinted on the retinas of many eyes, I saw tiny television screens. I wonder if some of this eye trouble could be caused by the total of 385 hours a day they are watching their 223 TV sets. Perhaps it would be better if they would spend more time riding their 116 bicycles and 11 motor scooters, or if they would go to their 70 camps and navigate their 55 boats.

Upon examining the ears, I found the ear drums in vigorous vibration, agitated by sound waves from 652 radios, 170 reocrd-players and 29 tape-recorders, not to mention all the whispered gossip. Several students spend over 5 hours a day listening to the radio alone. No wonder they often found it hard to listen in class--their ears were too tired!

I did not learn very much about the noses in the class. Three of them have been broken at some time, but they were quickly activated and put into use as soon as they smelled pasties, pizza, steak, or any one of their 65 favorite foods.

The mouth was a very interesting place to examine. Although I am not a dentist myself, I could tell that 149 of the students have had over 200 teeth pulled, and several of them have some false teeth. Naturally, as a whole the condition of the teeth was quite good, since a large percentage of them are protected by Gardol, GL-70, Fluoristan, or Hexachlorophene. Only 10 students have never been to a dentist. As usual, the students' tongues were working furiously throughout the entire examination. It's a wonder that they are not worn out after all the exercise they get in the various vocal groups, the pep club, debate, forensics, and the modern language club. Although the students can spend many hours a day talking on the telephone in their six different languages, only one-third of them have ever had an opportunity to speak on the stage of the auditorium.

After completing the examination of the head, I then proceeded to study the rest of the student body. I discovered that the arms and hands were responsible for the completion of the various household chores that the class has performed, including doing the dishes, cleaning, washing and ironing, taking out the garbage, shoveling, cutting the grass, and making beds, just to mention a few. Of course, they get a little help from their 25 dishwashers, 122 automatic washers, and 57 dryers.

I have already mentioned that the brain was partly responsible for some of the students receiving school letters. The arms were perhaps even more responsible for the school letters received by 68 of the students who participated in the school sports such as football, golf, basketball, track, skiing, and cross-country. Evidence of the arm's responsibility showed up when I examined the muscles. It was also evident by the development of the muscles that 94 of the students worked for wages. They earn a total of $91.95 an hour, being waitresses, clerks, gas-station attendants, baby-sitters, carpenters and carry-out boys, as well as doing other odd jobs. Seventy-eight students receive a total of $164.75 a week as an allowance, but the class spends a total of $407.10 a week on recreation. Maybe this is the reason why 46 of their mothers are employed full-time outside the home, and 25 mothers are employed part-time.

At this point in the examination, the heart became the object of my close microscopic scrutiny. This operation was a little more complicated because I had to examine both the left and right auricles and the left and right ventricles separately. The expansion and contraction of the left auricle showed that the class leads a very active social life. Sixty-six of the students have been going steady for a total of 54 years, as indicated by the throbbing of the heart. I also noticed a strain on the muscle that contracts the left auricle, causing a pain which revealed that 46 of the students had never had a date. However, only 80 of the students have attended a high school prom. I continued a study of this section of the heart over a period of a week, and I discovered by certain palpitations, that seven students go out only one night a week, while 19 students go out seven nights a week.

Upon examining the right auricle of the heart, I discovered that this chamber, filled with purified blood, was responsible for the religious activities of the class. Again it was necessary to continue the examination over a period of several weeks, and I found that about 50% attend church quite regularly, while the other half ranges from once a month to not at all. There was vigorous muscular contraction in one corner of this chamber of Sundays, which indicated that 24 students teach Sunday School and 23 sing in a church choir, besides attending church regularly. Although 88% of the students are Lutheran, Catholic or Methodist, the members of the class belong to a total of 17 different churches.

After completing the study of the auricles, I then went on to examine the lower chambers, or ventricles. As I watched the irregular contractions of the left ventricle, I concluded that this class has a variety of favorites. Popular music stimulated the vagus nerves, which resulted in a vigorous beating of the heart. In this same survey, I also discovered that their favorite song is "Exodus," and their favorite book is "The Tale of Two Cities." The majority of the students prefer watching movies like "Goldfinger," and they also prefer "The Fugitive" to any other television show. You can tell by this that the class likes action and adventure. I noticed that the boys' hearts went into an uncontrollable tremor when the names of Debbie Reynolds, Doris Day or Connie Stevens were mentioned. Likewise, the heart of every girl skipped three beats upon hearing the names of Sean Connery, Elvis Presley, or Rock Hudson. However, a total of 78 actresses and actors excited the hearts of both boys and girls. Although the favorite singer turned out to be Bobby Vinton, over 100 students indicated that they like the Beatles.

During my examination of the left ventricle, it also became apparent by its construction that the students have a total of 156 pets, ranging from 102 dogs to one hibernating squirrel, which of course, at this time, is out of hibernation.

On the other hand, the right ventricle showed by a rapid increase in the heart beat that 72 students are afraid of snakes while only 8 are afraid of cats and dogs. Ninety-three students became very upset when they saw a spider or any other kind of a bug. Isn't it surprising that so many students like the Beatles when nearly half are afraid of bugs!

After completing the examination of the heart, I decided to analyze the blood, because the function of the heart is so directly related to its flow. I discovered many types of blood which were mixed in the following proportions: 22% of the blood is at least part Finnish, 18% is part English, 43% is part Swedish, French, Italian, or German, and the remaining 17% is composed of 11 different nationalities.

It is quite evident by the class' total weight of 25,359 pounds, that they consider eating to be a very enjoyable pastime. However, upon examining the stomach, I noticed a slight shrinkage which could be caused by 74 students who skip breakfast quite regularly. The class seems quite satisfied with its weight because only 30 students are on a diet to lose, while one student is on a diet to gain.

Just as the arms told me much about the activities of the class, the legs also revealed several facts. I noticed that certain muscles were well developed, which indicated that the class does a lot of dancing. Eighty-two girls have been asked to dance and, surprisingly, 82 boys have asked a girl to dance! However, only 159 know how to dance. Maybe this is the reason why I found bruises on 5 big toes! When I examined the feet, I noticed that the students don't walk as much as people used to several generations ago when I first started practicing medicine. I found

that the reason for this is that the class has a total of 315 cars, 54 trucks, and 17 jeeps, in which they ride rather than walk.

And if these vehicles were not enough, 122 of the class members have riden on trains, 55 in airplanes, and 121 on commercial buses, when they visited as many as 38 states and six foreign countries.

After having completed the entire examination, I concluded that the Class of 1965 is indeed qualified for graduation. If there is any doubt in your mind, please come to me, because after all, who knows more about the class than I do after studying the 16,896 questions and answers on which I based this examination.

--Carole Carlson

GIFTATORY - PROPHECY

CARHOPS: Leslie Cyrus, Evelyn Jarvi, Carol Lindberg, Geri Locher, Carole Maki, Gail Poirier, Suzanne Richards

INTRODUCTION:

Our place of business? – Why don't you know?
We're from the "Hematite Stop and Go"

The high school drive-in on Highway 65,
And we've been so busy lately – man alive

But tonight our business is different – we've nothing to sell,
We're giving to every one of our clientele

We know their likes and dislikes too,
Every single one of the 192

Perhaps we should explain this give-away deal,
It doesn't seem right or yet quite real

But we've lost our lease and we must go,
We have no choice – that's progress you know

So tonight we're giving to each of our trade,
Something to use in the plans they have made.

To Stephen Aho, accountant, goes this lifetime pass to Ringling Brothers Circus, where he can go if he has to juggle his books.

This van is for Sandra Aho, practical nurse, because she'll always be on the move.

Susan Aho, secretary, gets this small glove to fit her shorthand.

This coffeepot goes to Thomas Allen, conservationist, so that he has his own grounds to inspect.

Kindergarten teacher Carol Anderson can use this piece of twine to keep her kids in line.

To James Anderson, aeronautical engineer, Scotch Tape to hold his planes together.

A joke book will enable Doctor Catherine Andriacchi to keep her patients in stitches.

Nuclear physicist John Archibald will be able to split atoms with this ax.

John Armitage, miner, gets this arrow so he will always have a shaft to go down.

This spool will enable mechanic Michael Asgaard to know his way around cars.

To Susan Austin, housewife, this gun to hold up her household.

This dipstick will warm Bryn Bannon, commercial artist, when she is running short of oils.

Millionaire Philip Barbiere can use this bank book for the deposit of his first million.

By carrying this deck of cards, detective, Paul Belpedio will always have a trick up his sleeve.

Pamela Beltrame, elementary teacher, can wear these glasses to see through her students.

Beautician Valerie Beltrame can gain access to her customers' looks with this key.

With these matches, John Bengtson can help his students to see the light.

This bridge will enable teacher, Jack Benson, to get across to his students.

Keeping rats out of her customers' hair will be easy for beautician, Nancy Bertucci, with this trap.

Coach John Bianco gets a record, so his team will always have one to break.

This tiny watchdog will enable Joseph Billings, industrial arts teacher, to guard against accidents.

An eggbeater will help Bradley Blight, mechanical engineer, to whip up any needed IDEAS!

Pounding the beat won't be a problem for police sergeant Richard Boase if he uses this hammer.

Draftsman Dennis Bonovich can use the address of the nearest recruiting station should he ever want to enlist.

This spark plug will enable Robert Brogan, automotive supply distributor, to fire rather than be fired.

Darrell Burnette, marine biologist, gets this picture of Flipper, so his life will always have a porpoise.

Earmuffs will enable social worker, John Cardoni, to listen warmly to people's troubles.

To Vito Carello, welder, this compass, so he will always have the right arc.

To Carole Carlson, music teacher, this shoe horn so she can blow away the sour notes.

We give this can opener to Charles Chard, biology teacher, so he can get at the source of things.

James Connors, draftsman, can use this damper to keep his hot drafts under control.

These glasses to Michael Crothers, medical technician, so he'll always have containers for his specimens.

We give this watch to Juanita Currie, beautician, so she'll always have a face to work on.

With this emery board, Leslie Cyrus, registered nurse, can be sure that she'll never have a dull needle.

Jeffrey Decaire, our chemical engineer, will probably be working with plutonium and radium, so here's another -- geranium.

To Hayden Dunn, businessman, we give these aspirin tablets for all those headaches he's sure to have.

For Susan Dye, legal secretary, this contract from Perry Mason to replace Della Street.

With this compact, Stephen Eklund, corporation lawyer, will be assured of always having a new case.

Bruce Epper, automotive engineer, will be able to use this model for inspection.

To prop up his cars, John Erkkila, mechanic, can use these jacks.

Secretary, Nancy Fernea, can use this chewing gum as a last resort if she has to patch up a few mistakes.

To Joan Fleck, secretary, this iron for her boss' "pressing" problems.

When David Gadomski, CPA, gets tired of figuring, these extra noodles may come in handy.

To Teresa Gagliardi, history teacher, we give this bulb to brighten those blue Mondays.

To Thomas Gauthier, public accountant, these paper dolls to make his figures more interesting.

This supply of ear plugs (cotton batting) to Leo Gehlhoff, chemist, for those experiment failures.

Florian Gelmi, baseball scout, can use this string so he will always have a new lead to follow.

Maybe Bruce Greenwood, metallurgical engineer, can develop soft, fluffy sweaters from this steel wool.

So that Michael Grund, electrician, can make quick and easy connections, we give him this clothes pin.

Elementary teacher, Jane Gumerson, can make use of this pogo stick to keep one jump ahead of her charges.

To Robyn Gustafson, secretary, this elastic to help stretch her shorthand and typing speeds.

We give this "Pepsi" to Sandra Gutzman, elementary teacher, so that she can easily cope with the younger generation.

To Judith Harper, beautician, this glue for those hard-to-hold hair-dos.

Maureen Harvala, practical nurse, can use this knife to spread cheer among her patients.

To David Hebein, welder, this candle in case his torch fails.

Warren Heikkila, metallurgical engineer, will never be out of a job with this iron.

So she can greet the clients cheerfully, this bottle of Joy for secretary Audrey Hendra.

Chemical engineer, Richard Hill, can use this bottle of Tame to tame the atom.

Mary Hillman, speech therapist, can use this vanishing cream to remove her students' speech problems.

Commercial artist, Raymond Holkko, will always have new ideas with this thinking cap.

This thumb tack for Marilyn Holli, social worker, so she can deal tactfully with her delinquents.

This bottle of Anacin to elementary teacher, Gail Holman, so she won't take it out on others.

A flashlight for Jean Honkavaara, speech therapist, will lighten her job.

To Robert Hooper, dentist, this comb so he will always have teeth to work on.

If his diesel engine doesn't work, Robert Isaacson, diesel mechanic, can use this spark plug.

This short pencil to Diane Isotalo, secretary, so she will have little trouble with her shorthand.

To Ronald Ivey, welder, this sun-tan lotion for those hot spots he'll be in.

A multiplication table for biologist, Evelyn Jarvi, so she can keep up with her bacteria count.

This egg to Alan Jennings, industrial arts teacher, so he'll be a shining "eggs"-ample to his students.

Machinist, Larry Johnson, can use these nuts to go with his bolts.

Mary Johnson, secretary, can use this shovel to help her when she is "snowed under" with work.

These toothpicks for Scott Johnson, metallurgist, to pick out the metal in the ores.

William Johnson, mechanical engineer, can keep his motors humming with this harmonica.

An eraser for Anne Joseph, nurse, so she can wipe out germs.

To Dianne Juidici, beautician, this rat poison for a good dye job.

These gloves to JoAnne Juidice, beautician, to keep her hands warm when she gives a cold wave.

A teapot for Michael Kangas, teacher, will enable him to let off steam.

If Dennis Katajamaki, mechanic, puts this doorbell in his motor, it won't knock.

Mathematician, William Kindstrand, can use this sandpaper to keep him smooth when the going gets rough.

For Dale Kintgen, engineer, this scraper to remove all those clouds as his buildings reach into the sky.

To DeeAnn Kirby, social problems teacher, this sharpener so her lectures will never be dull.

This ruler for Doreen Kirby, math teacher, so she can straighten out her students' problems.

To speech therapist, Charlene Knight, this needle so her students will get the point.

This bottle of ketchup will help Carrie Koivula, nurse, to get used to the sight of blood.

To Rodney Koivula, heavy equipment operator, this globe for his first earth moving project.

For John LaBelle, research biologist, this crystal ball so he can keep ahead of the latest discoveries.

Carolyn Lahnanen, nurse, can use this Dr. Pepper to give her patients a lift.

To Carrie Laitinen, nurse, this bottle of Swan. "It does the dirty work no woman should have to do."

For Gary Laitinen, mechanical engineer, this Top Job, so he won't have to work his way up.

This battery goes to Wayne LaMere, jet mechanic, to give his engines more power.

Donna LaPin, secretary, can use this bottle of formaldehyde to preserve her typing speed.

Larry LaPointe, welder, will make use of this bar in the melting process.

This ball of angora yarn will help George Lehtinen, state policeman, to be one of the "fuzz."

A balloon to take Elaine Lehto, geography teacher, to visit the land of "Oz."

To David Lerlie, engineer, this iron-on patch for repairing structural difficulties.

Carole Liimatainen, registered nurse, will need this starch to keep a stiff upper lip during her many duties.

So she'll always have a joke to tell, Carol Lindberg, elementary teacher, gets this ear full of corn.

Robert Lindholm, welder, might appreciate this chewing gum for difficult repair jobs.

This Enden to elemnentary teacher, Geri Locher, so she won't get her "dander up."

For the most valuable smile, Gail Luther, teacher for the mentally handicapped, deserves this blue ribbon.

To Gary Lynn, clerk, this bottle of Suave so he'll know how to handle his customers.

Trudy Maddock, secretary, can use this Metrecal to reduce her work.

This 5 cent stamp will assure Carolyn Mager of being a first-class secretary.

This lemon goes to Marvin Makela, electronics technician, so the juice will always be strong enough.

Carole Maki, elementary teacher, gets this green apple for her first day at school.

This bug will show Dennis Maki, medical technologist, what to look for under the microscope.

To Robert Manyla, chemist, this mouse trap to catch the unknown atoms.

To help Florence Marietti, beautician, get ready for her customers, this bottle of Get Set.

JoAnn Marra, homemaker, might appreciate this TV dinner when she's testing a new recipe.

To John Masters, game warden, his first suspect to bring into custody, an egg poacher.

This rear view mirror to Myrna Maxwell, elementary teacher, to enable her to see what is going on behind her back.

These metals, iron, brass, aluminum and tin, to Alton McCarthy, airman, so he will be a hero in the ranks.

To Joanne Mitchell, policewoman, these colored pencils to help her beat the gunman to the draw.

Rodney Montcalm, biology teacher, a can of Raid to keep his pests under control.

To English teacher Mary Ellen Morell, this squirt gun so her subject will never be dry.

This duck call to Mary Moyle, practical nurse, in case she works for a veterinarian.

For Loren Mustamaa, artist, this clay to make himself some models.

These finger paints to John Mustonen, commercial artist, in case he runs out of brushes.

To Margaret Nault, nurse, these band aids in case the doctor gives her a cut in pay.

For John Nelson, welder, this glue to help him hold his work together.

Grading themes will be easy with this magic marker for English teacher, Patricia Nelson.

To history teacher Francis Neuman, this little black book to help him keep his dates straight.

Scissors to art teacher, Barbara Oja, to keep her classes from becoming dull.

This scapel to Suzanne Oja, medical secretary, to cut out those painful medical terms.

To airman, Fred Olander, these wings to help him fly.

Connie Olgren, saleslady, can use this comb to get those impatient customers out of her hair.

We give this hero pin to James Olson, welder, so he won't have to piece his own metals together.

This mechanical pencil will make work enjoyable for draftsman, Phillip Ombrello.

Barbara Ostlund, journalist, can use this screen to sift the good news from the bad.

We give physical therapist, Judith Pajula, this jack to raise patients up after rubbing them down.

To Perry Palomaki, industrial arts teacher, this sandpaper in case his students get too rough.

To William Palomaki, electrician, we give this Redi Kilo Watt. He'll be fully powered if Billy is not.

Bernard Pearce, elementary teacher, will want this shaver to cut down on those soft whispers.

For coast guardsman, Tom Peller, this hair net to hold down the waves.

This road map to beautician, Helene Peltier, so her customers will always come back.

These needles for Douglas Perttunen, coach, to help his team get points.

To Ellen Peterson, teacher, this stick of dynamite so her class will be one big blast.

To Pamela Phare, church deaconess, this cheese for all those poor church mice she'll meet.

French teacher, Ruth Piirto, when travelling in France will be able to use this dictionary to keep the situation well in hand.

Engineer Louis Pinard will hand out this little business card "Nothing is Better for Thee than Me."

To Gail Poirier, private secretary, here's a mask to wear when the boss' wife say "How do you do?"

This tin ear for social worker, Brian Polkinghorne, to use when all those hard luck stories come his way.

To Lynn Pontti, interior decorator, these wheels -- this one to keep her in the know and this one to keep her on the go.

For master mechanic, James Racine, this double-headed wrench will be just keen.

This instant Maxwell House to John Rader, teacher, so his students will be "good to the last drip."

Peter Rahm, metallurgist, can use this hydrochloric acid to help dissolve those "unknown" blues.

This broom to William Redman for his industrial arts shop 'cause dirt and dust on the floor must stop.'

To David Reed, draftsman, this T-square, right angle and triangle so he can line up his future.

This "tranquillizer" (mallet) that goes directly to the trouble spot is ideal for elementary teacher, Larry Rice.

To Suzanne Richards, high school teacher, this book Teenagers-Why and What They Are, so that with her students she'll be a star.

This coat for David Rickstad, draftsman, to keep him warm.

To Stephen Ring, Marine, something to look upon as you march in file -- this autographed picture of your buddy, "Gomer Pyle."

For that well-groomed look, business administrator, Dennis Rosten, can use this hair tonic. Careful now, Dennis, "a little dab will do ya."

To Mary Rosten, IBM operator, this file of information with figures galore so she can tell if two and two are still four.

David Rule, heavy equipment operator, will be able to use this "sit upon" for more bounce to the ounce.

To Roy Ruohomaki, electronics engineer, this spoon to keep those electrons stirred up.

For fun on the job, mechanic David Ruona, can use this happy little "jack." (in-the-box)

Terry St. Amour, design engineer, can use these patterns in his career.

So that he'll always pass inspection, this can of saddle soap for "Leatherneck" Edward St. Andre.

This chart of A, E, I, O, and U will help speech therapist, Frances Sarvello, with the job she had to do.

To Norman Scarffe, game biologist, this potato so he can keep an eye peeled for new game.

Physical education teacher, Sharon Schrandt, with fitness on the brain, can use this timer to help her girls train.

Lens polish for lab technician, Roxie Smail, so that microbes will know when Roxie's on their trail.

With this Beatle wig, James Sodergren, music teacher, can earn extra money on holidays as a substitute for Ringo Starr.

Something's in the air when Robert Spencer joins the Air Force holding this balloon.

Invisible ink for Bernard Stanaway, printer, so any errors he makes won't show.

To Carol Stephens, airline stewardess, this retriever -- in case her flying takes her out of this world.

Catherine Sturm, physical therapist, will need this shield to protect her from the swirling whirlpool.

This smile for architect Paul Sundberg so that he will always have "beams" for his buildings.

Typist Carol Syrjala can use this feather to "tickle those keys."

Oil will help physical therapist Jacalyn Tonkin loosen the creaky joints of her patients.

To Jack Tonkin, electrical engineer, we give this extra wire to add a "short circuit" to his long line.

To Karen Tremethick, nurse, this towline so that she can always pull her patients through.

Michael Tunteri, history teacher, will need this globe to follow his students through their course.

To Carey Turino, home economics teacher, a set of beaters to keep her students working.

Steven Turino, metallurgical engineer, can use this paddle in case he runs out of ores.

To Arlene Tuttila, beautician, this skeleton key to unlock hidden beauty.

A spade will help social worker Mary Ulrickson dig out those difficult cases.

A jar of soil for Rose Vahamaa, beautician, to give her customers that original "mud in your eye" look.

To Francis Valela, art teacher, we present this box of crayons for a colorful career.

A banana for mechanic Edwin Villeneuve to give to his fellow grease monkeys.

Rabbits' feet will help nurse Virginia Voelz charm those high temperatures away.

Paul Wakkuri, electrician, can use these "currants" in his future career.

Psychoanalyst Wayne Wehmanen can surely use this butterfly net to catch those people who are "bugs".

This clock for Donald Welsh, pharmacist, to time his pills -- every hour on the hour.

To Clarence Willey, physical education teacher, these dumbbells so he won't run out of material.

David Williams, lawyer, will need these potholders to handle those "hot cases."

A magnet for beautician Joan Williams so her customers will find her attractive.

To Nancy Williams, elementary teacher, HALO (shampoo) for her little angels.

Strings for teacher Karen Windsand so that she can always control her little "dolls."

To Cheryl Young, social worker, this fan for cool judgement in some difficult case.

CONCLUSION:

And now our gifts have all been given
Our business here is through,
And, Class of 1966,
We leave the highway to you.

JUNIOR PROM 1964

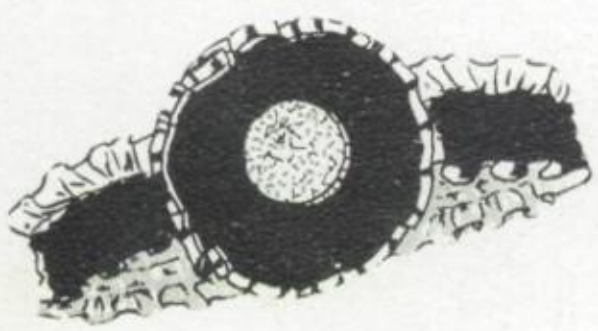
No holding hands
within two blocks of school.

Left. . . . . .Right. . . . . .Left. . . . . .Right

On the prowl!

So that's the way that they did it.

Two's a couple,
t'ree is a crowd.



They held hands,
why can't we?

The Queen and Her Court

Left to right: Gail Luther, Jean Honkavaara,
Joanne Mitchell, Arlene Tuttila, Nancy Fernea

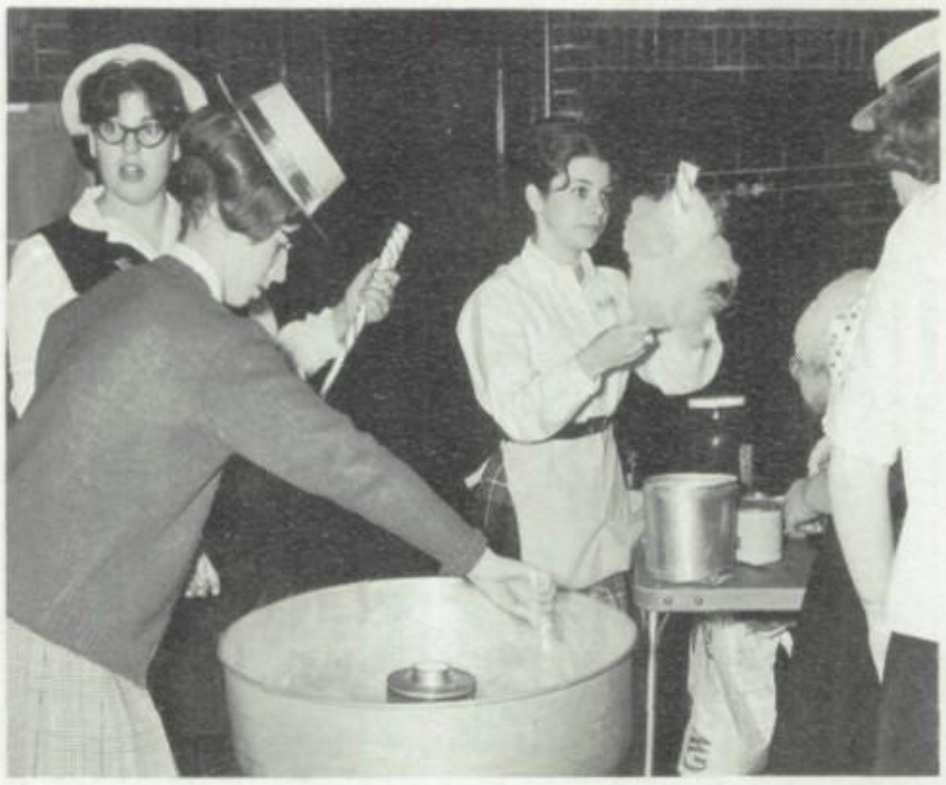
Our reigning Homecoming Queen,
Miss Joanne Mitchell,
and her escort, John Bianco

Left to right: G. Luther, D. Welsh, N. Fernea, J. Tonkin, J. Mitchell, J. Bianco, J. Honkavaara, L. Pinard, A. Tuttila, L. Gehlhoff

Forward Ho!

Isn't that a lot of bull?

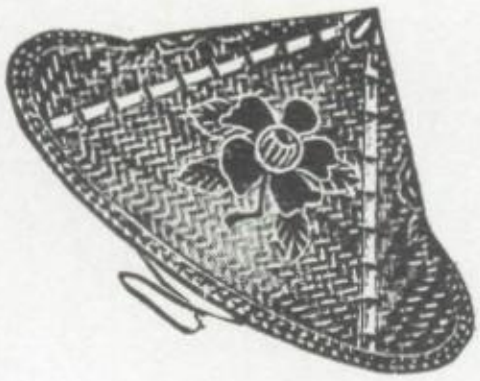
SENIOR CLASS PARTY



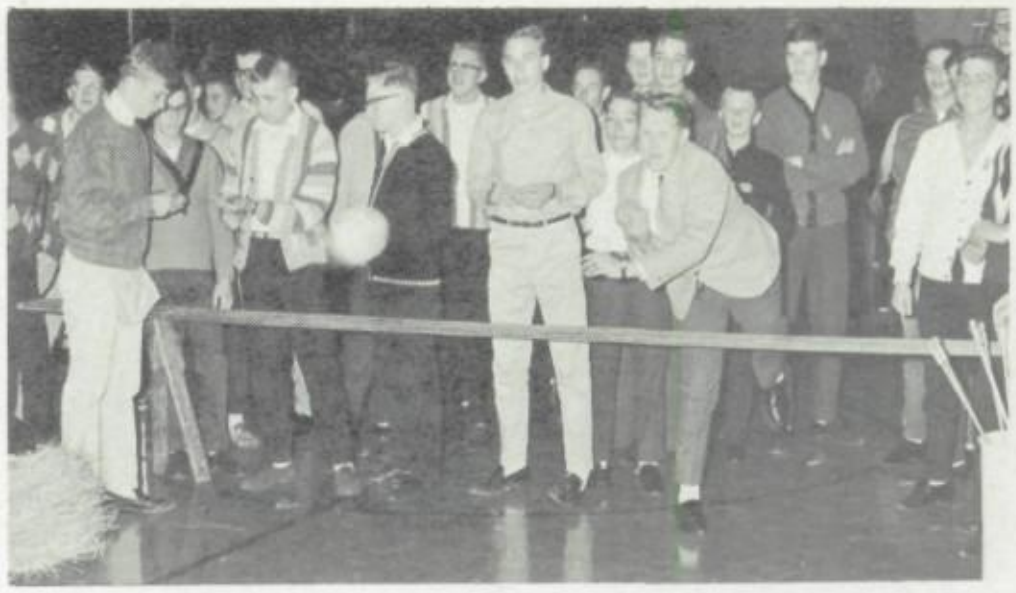
But it's only 7 cents.

That'll show you!

Just takes a little concentration

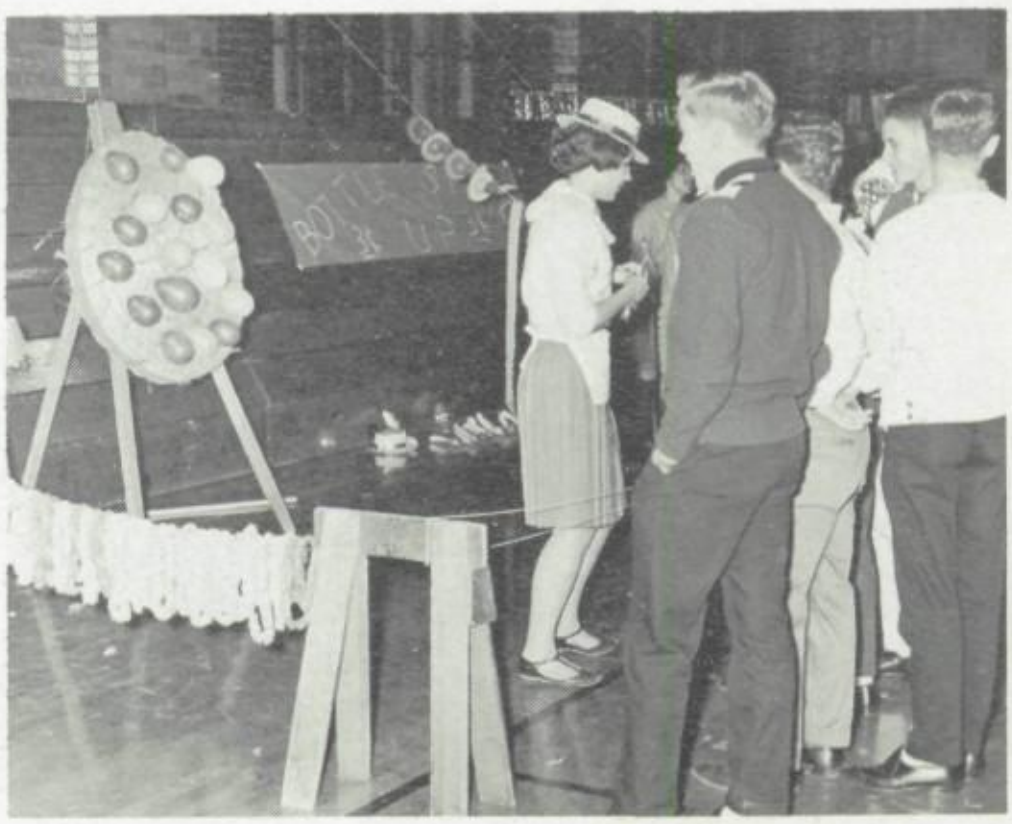


I'll get you yet!



You'd better remove your
false teeth before you bite

Do you really think
I can break one?



Class of 1965

Ishpeming High School

PRESENTS

Father was a Housewife

A COMEDY IN THREE ACTS

by

Vera and Ken Tarpley

*

Produced by special arrangement with Baker's Plays, 100 Summit St., Boston, Mass.

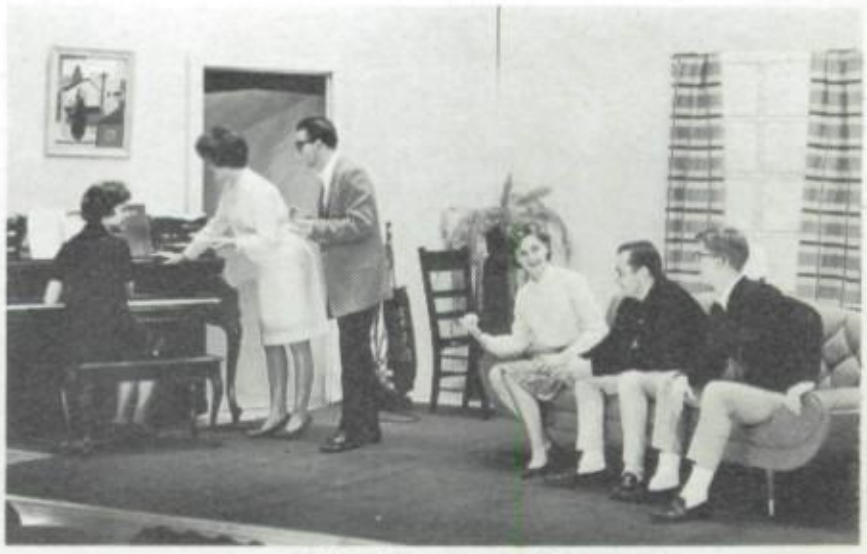
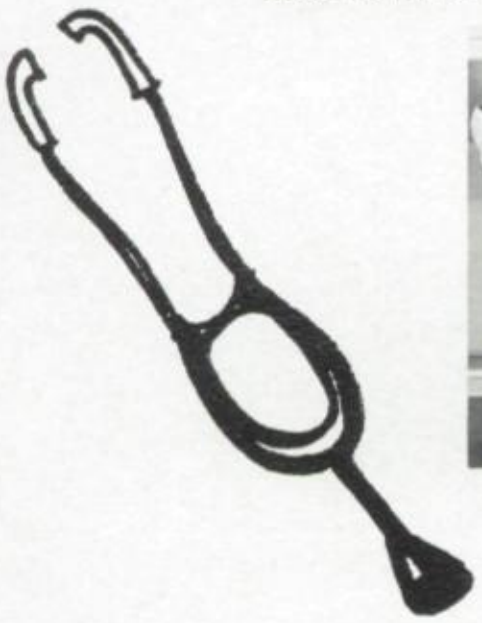
"What's so funny, Susie?"

"Now Loren, was that nice to hit a lady?"



"Take it on the down beat, Fran!"



"Jean and Geri, are you thinking the same as we are?"

This comedy type play centered around a situation in which Tom Butler has been pounding out hoped-for song hits while staying home and doing all of the household chores, while his wife, Ann, a successful doctor, has been supporting the family. The effect this had on their 16-year old twins, Doug and Julie, created hilarious situations. Doug was laughed at by his friends because his father was a "housewife." Julie felt that a woman should not try to have both a career and a family; therefore, she resented her mother's position. Tom's bungling attempts to remedy the situation made the play still more hilarious. Tom and a vacuum cleaner salesman, who became his agent, teamed up to set things right in the end.

PRESIDENT'S COMMENTS

We the members of the Junior Class have had many social activities during the school year to add to our knowledge and enjoyment. Having laid the foundation for our Senior year, we the Junior Class of 1964-65, look back into our Junior year with pride and a feeling of accomplishment. Our first endeavor was the construction of our class float, which through the work of many, was a great success and was awarded first prize in our home-coming day celebration.

Later in the first semester came the Junior Class Party, which was a memorable experience for all who attended. Near the end of the first semester the Christmas Play was presented, and because of the excellent direction by Miss Brown, was a tremendous success.

The beginning of the second semester brought about the preparation of the foremost school social event, the Junior Prom. The fine cooperation of the class members made this one of the high-lights of the year.

As you can see this has been a rewarding year for the 1964-65 Junior Class. However, special gratitude and thanks must be given to Mrs. Andrew, our class advisor. With her help and guidance our Junior year in school has been a year that will long be remembered by all of us.

THE VISION

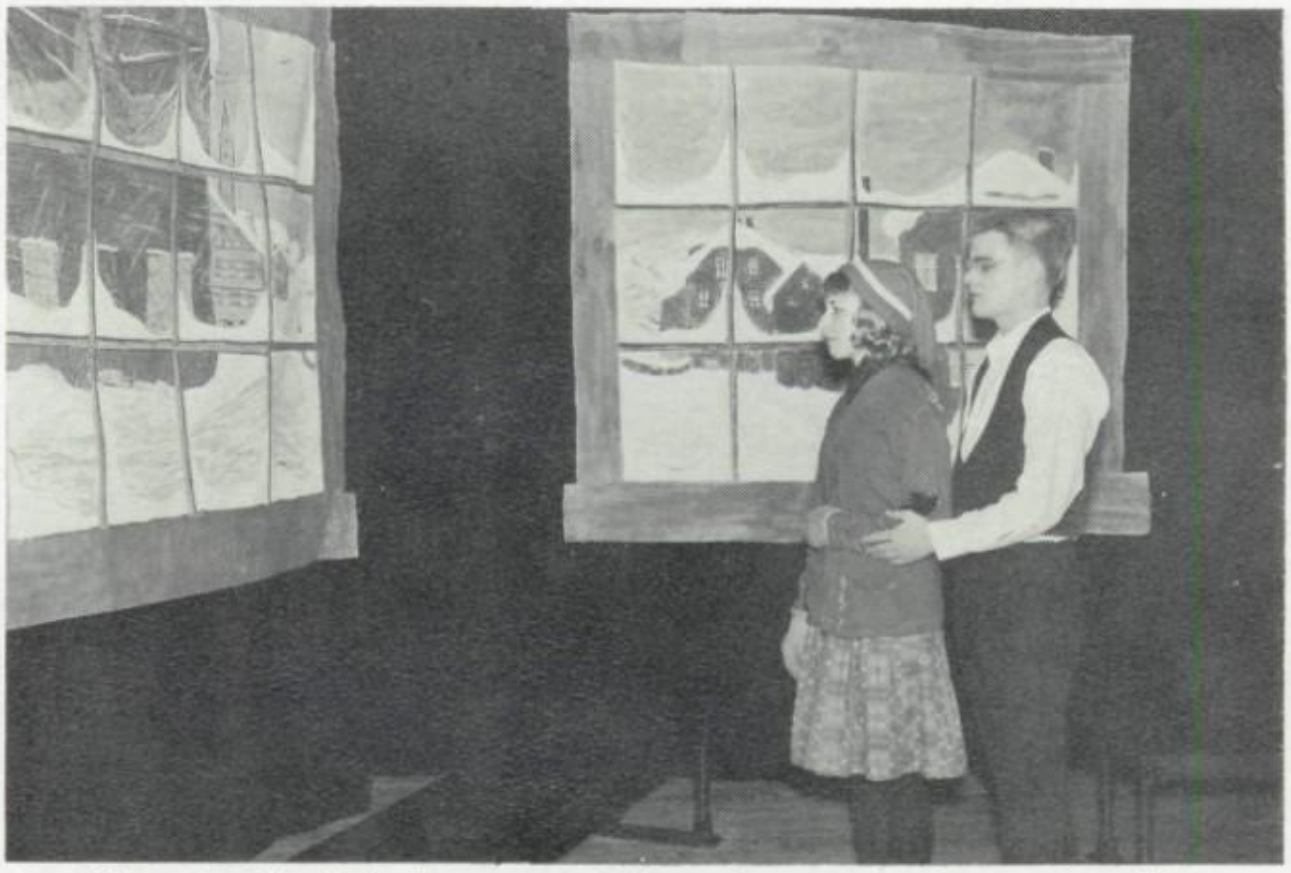
In a remote Bavarian village, a humble cobbler – Hans Lumpert by name – reports to the astounded townspeople that he has experienced a wondrous vision. In it, Christ Himself has promised to visit Hans Lumpert's dingy shop on the day before Christmas.

His story falls on scornful ears, and even his friends deride him as a hopeless dreamer. Nevertheless, Hans stubbornly proceeds with his preparations: cleaning his untidy shop, improvising a shrine, and holding steadfast to his faith that the Savior will most certainly appear as He has promised.

As he works and waits, the excitement of the impending Visitation somehow lifts him above his usual crotchety nature. He gives a pair of beautiful shoes to the needy daughter of a widow; he shares his lunch with a stranger; he even clothes two shivering, coatless little girls in garments which once belonged to his own dead children.

At last, when night has fallen and the Visitor has not yet appeared, the gaze of the despairing cobbler falls upon his dusty Bible; and in the words, "Insofar as ye have done these things unto these. . ." Hans comes to realize that – in a very special way – Christ has indeed been with him this day.



"But Daddy, I don't want to deliver the papers this morning!"

Does Mr. K. know that Peter's been smoking in school?

PRESIDENT'S COMMENTS

As we, the class of 1967, entered the portals of Ishpeming High School in the fall of 1964 for our sophomore year, we felt a greater poise and confidence than we had felt the previous autumn. We were determined to "make the grade," and the majority of us did. Many members of the class distinguished themselves by being placed on the honor roll. Others earned varsity letters in football, basketball, track, or cross-country; won forensic contests; participated in band, orchestra, chorus, or mixed ensemble; debated; and engaged in other worthwhile activities.

Although we did not quite "bowl over" all of the judges, nevertheless we took second place in the float competition. We worked hard constructing it, but we had fun and gained much knowledge from it. Our party in conjunction with the freshmen might also be termed successful because of the large support and attendance it received. We had fun performing our "Kangaroo Kourt," and from the crowd's reaction, they enjoyed it too.

We will retain many fond memories from our sophomore year: football games, basketball games, classroom incidents, etc. However, one cannot live in the past, so onward we must go with bright eyes and optimistic outlooks into our junior year and the future.

Alan Morrison
Sophomore Class President

PRESIDENT'S COMMENTS

A new life began for the incoming freshmen upon our arrival at I.H.S. Our next four years appeared almost as an eternity after our first day of classes. We were a group of shy, confused individuals. As time went on our shyness disappeared and we began to enter into the many extracurricular activities.

Our first class project was the construction of a float for the Homecoming parade. Our float was not too successful, but with the knowledge we gained, we hope to do better in the future.

In February we were called upon to put on a party with the sophomores. We consider the party a great success because of the favorable comments and the large attendance.

We are very proud of the freshmen who were placed on the Honor Roll and the Honorable Mention. We hope to see this number increase in our next three years.

As our freshman year draws to a close and we think of the experiences we have had and the knowledge we have gained, we are hopefully looking forward to our sophomore year.

VARSITY FOOTBALL

This year Ishpeming's win-loss record in football was better than it has been in several years. The team had a good 4-4 record for the season. Injuries to key players put six regulars on the bench for the second game of the campaign.

Then things started to happen! A victory coupled with a close loss stimulated the team's spirit. The Hematites then proceeded to beat our neighbors and rivals, Negaunee and Marquette. The strong Blue and White defense gave up only four first downs in these two games. The offense also looked the best that it had all season with excellent blocking and running combined with an enthusiastic spirit.

The next week Ishpeming just wasn't ready to play football. The offense did a good job in getting points, but the opposition did much better. In the last game of the year, Ishpeming bounced back into the win column with a defeat against Stambaugh. This game was the last for seniors: John Bianco, Phillip Barbiere, Joseph Billings, Leo Gehlhoff, Bruce Greenwood, Dale Kintgen, Gary Laitinen, William Palomaki, Tom Peller, Louis Pinard, Jack Tonkin, Michael Tunteri, Steven Turino, Donald Welsh, and Clarence Willey.

The team this year was truly a team. There were a few outstanding players, but most of the games were a team effort. We had some fine running from the starting backfield of Gary Laitinen, Bruce Greenwood, Leo Gehlhoff, and Clarence Willey. Gary and Leo received all-conference honors and Clarence received all-U.P. honors. Mike Tunteri was on the all-conference first team at center and received all-U.P. honors. Bill Zhulkie did some fine passing for the Blue and White while Don Welsh, John Bianco, Nick Joseph, and Richard Larson did effective blocking in the interior line.

Although defense is a team effort, there were a few standouts on the team defensively. Bonetti led the team in interceptions with 4. Jack Bianco called defensive signals from the linebacker position and did a very good job.

On the varsity this year we had some promising juniors and sophomores who should make a good nucleus for next year's team.

Tom Peller

Pellonpaa, W. Charbonneau, R. Smith, M. Archibald, R. Rahm; Row 3 – J. Decaire, E. Stimac, J. Carlson, J. Phillips, B. Waters, G. Laitinen, T. Kipling, J. Emanuelson; Row 4 – J. Ruesing, P. Kivisto, R. Boase, J. Cardoni, L. Rice, J. Benson, A. Morrison, D. Sundberg

As fall arrived in Ishpeming, a call went out for boys interested in long-distance running. A total of forty boys answered the call; twelve seniors, eight juniors, twelve sophomores, and eight freshmen.

The team had two scheduled meets, the Great Lakes Conference Meet and the Upper Peninsula Finals.

At the Great Lakes Conference Meet on October 3, 1964, held at the Marquette Golf and Country Club, Ishpeming placed first with the lowest score of forty-two points. This was the first Great Lakes Conference Meet in ten years. The first-place trophy was only the second won by Ishpeming in Great Lakes competition. All together, Ishpeming won a trophy and four medals. Other schools that competed were Gladstone, Escanaba, Marquette, Munising, Newberry, and Sault Ste. Marie.

The U.P. Finals were also held at the Marquette Golf and Country Club on October 10, 1964. Ishpeming placed first in this meet also, with fifty-five points. Ishpeming collected a first-place trophy, three individual medals, and seven team medals in this meet. Other teams that competed were Escanaba, Sault Ste. Marie, Menominee, Gladstone, Newberry, Munising, Rudyard, Marquette, and Kingsford.

At the Great Lakes Meet nine boys were entered. Only five were considered for score. The five were as follows:

Rodney Montcalm	4th
Gene Cyrus	8th
Stephen Ring	9th
Gordon Leppanen	10th
William Parkkonen	11th

At the U.P. Finals seven were entered, but as in the Great Lakes Meet only five were considered for score. The five were as follows:

Gordon Leppanen	4th
Rodney Montcalm	5th
Gene Cyrus	6th
William Parkkonen	19th
Ronald Coluccio	21st

The following boys received letters for their participation this year.

Rodney Montcalm '65	Gene Cyrus '66
Douglas Perttunen '65	Robert Merrill '66
Stephen Ring '65	Gordon Leppanen '67
Ronald Coluccio '66	William Parkkonen '67

Because of his will to win, good sportsmanship, determination and ability to get along with every member on the team, Mr. Andrew should be congratulated for making this year such a success.

– Peter Rahm

VARSITY BASKETBALL

Doug Perttunen

David Gadomski

Left to right: Row 1 – P. Wirtala, R. Coluccio, W. Zhulkie, D. Perttunen, W. Parkkonen, D. Gadomski, J. Decaire; Row 2 – Mr. Phillips, A. Morrison, M. Tunteri, R. Larson, A. Ameen, P. Valenti, J. Olson, R. Boase, J. Phillips

Mike Tunteri

Jim Olson

Jeff Decaire

VARSITY BASKETBALL

The Ishpeming High basketball team began the year with the same obstacle that had faced them the last two years – lack of height. The tallest member of the team was six feet, two inches and the smallest was five feet, seven inches tall. To overcome this disadvantage the team had to out-scrap their opponents. They did this with much success.

The team consisted of six seniors, four juniors and four sophomores. The letter winners were Alan Ameen, Richard Boase, Ronald Coluccio, Jeffrey Decaire, David Gadomski, Richard Larson, Alan Morrison, James Olson, William Parkkonen, Douglas Perttunen, Michael Tunteri, Peter Wirtala and William Zhulkie.

This year Doug Perttunen and Jim Olson were the honorary co-captains. Doug Perttunen was voted the most valuable player, and Alan Morrison was voted the most improved player on the team. Senior Jeff Decaire was voted the best defensive player.

Team awards this year consisted of a third place in the Great Lakes Conference and a District Class "B" Championship. Individual awards varied from state-wide recognition to team recognition. Doug Perttunen was voted on the fourth Class "B" All-State team. Individual awards went to the leading scorers, rebounders, and leading free throwers. Doug Perttunen led the team with 380 points. He also led in the rebounding division with 186. Alan "Poo" Morrison led free throwers with a seventy-five per cent average. Doug Perttunen also set a new school record, breaking the previous record held by Terry Thompson. The new record is 1104 points scored over a four-year period.

The Hematites drew Gladstone for their first game in district tournament play. They beat Gladstone by one point and proceeded to beat Negaunee by two points to win the Class "B" District Championship. Rudyard was our first opponent in regional play. Ishpeming lost by four points, but not before they put on a rally that won them the admiration of everyone in the Northern Michigan University Fieldhouse. Coming from thirteen points down, they tied the score but couldn't score enough to win the game.

The team closed the season with a thirteen and seven record. Six members of the team are graduating seniors – Richard Boase, Jeffrey Decaire, David Gadomski, James Olson, Douglas Perttunen, and Michael Tunteri.

– Peter Rahm

SEASON'S RECORD

Ishpeming 67	Manistique 49

Billings, A. Ameen, R. Larson, S. Aho, B. Rowe, D. Voelz, J. Polkinghorne, G. Leppanen, R. Chestnut, M. Turino

Track proved to be very popular last spring with over 80 students participating. There were 11 seniors, 19 juniors, 21 sophomores, and 31 freshmen.

ISHPEMING 74 NEGAUNEE 35

The Hematites traveled to Negaunee for the first meet of the year and overpowered the opposition. First place in all but three events, and numerous second places made the meet a rout. Firsts were taken by Swanson, Perttunen, Norkoli, Zhulkie, Tunteri, Coduti, and Boase. The Hematites took both relays to finish off the team victory.

ISHPEMING 82½ GWINN 35 BARAGA 19½

Ishpeming, taking eight firsts and tying for another, again overpowered all competition in winning their second meet of the year. Again it was a strong team effort. Swanson, Perttunen, Norkoli, Gehlhoff, Coduti, and Tunteri all scored first places for Ishpeming. Both the Hematite relay teams were victorious.

GREAT LAKES CONFERENCE MEET

The Hematite thin-clads placed fourth in a field of ten entries at Manistique. Firsts by Swanson in the mile run and Perttunen in the half-mile run helped the team to score 23 points.

Places were also taken by Coduti and Carello (broad jump), Gehlhoff and Boase (high jump), Montcalm (mile run), Norkoli (440 yard run), and Chipman (220 yard dash). The 880 yard relay team took a fourth place.

ISHPEMING 34 MARQUETTE 75

The tables were turned on the Hematites when Marquette invaded our playground. Ishpeming scored five firsts including wins by Swanson (mile run), Perttunen (880 yard run), Norkoli (440 yard run), Coduti (broad jump), and the mile relay team. The mile relay team was clocked in a fast 3:46.5.

REGIONAL TRACK and FIELD MEET

In a fine team effort the Ishpeming trackmen finished second to a strong Ironwood team by the score of 45 to 47. It was a very close meet with only 3 points separating the first three teams. Fine performances were turned in by Swanson (mile run), Norkoli (440 yard dash), and Perttunen (880 yard run). The mile relay team, Valenti, Perttunen, Johnson and Norkoli, broke the previous record that, incidentally, was held by Ishpeming. In addition, Norkoli broke the regional record for the 440 yard dash. Gehlhoff, Boase, Chipman, Montcalm, Carello, and Ring also won points for the team.

COUNTY TRACK MEET

Again Ishpeming showed a fine competitive spirit in placing second to Marquette in the county meet. Firsts by Swanson and the mile relay team, plus another record-breaking performance by Norkoli, all helped the Hematite cause. The key to the Hematite success was the winning of a number of second and third places by many members of the team.

FRESHMAN - SOPHOMORE MEET

Ishpeming placed second to a strong Negaunee underclassmen squad. Tomlinson, Zhulkie, and Larson all took firsts for the Hematites. This group shows promise for years to come.

UPPER PENINSULA MEET

Ishpeming placed fourth in a field of nineteen teams with Swanson taking first in the mile run. The remainder of our fifteen points was scored by Montcalm, Perttunen, Norkoli, Boase, Coduti and the mile relay team. This showing was a fitting finish to a very fine season.

THE FOLLOWING TRACKMEN WON LETTERS:

James Brogan '64
John Carello '64
Steven Chipman '64
Leslie Coduti '64
David Hickey '64
John Keuhnel '64
William Norkoli '64
Jack Strongman '64
Bruce Swanson '64
Richard Boase '65
Leo Gehlhoff '65
William Johnson '65
Rodney Montcalm '65
Douglas Perttunen '65
Michael Tunteri '65
Richard Larson '66
Dana Tomlinson '66
Paul Valenti '66
Donald Parkkonen '67
William Zhulkie '67

GOLF 1964

(Coach – Mr. Watson)

Left to right: Row 1 – S. Clements, J. Olson;
Row 2 – Mr. Watson, M. Archibald, G. Leffler, D. Gadomski

Ten boys tried out for the golf team, and the five low qualifiers were James Olson, Garrett Leffler, Mike Archibald, Silas Clements, and David Gadomski.

The season opened with a victory at Manistique, 342 to 363. The next dual meet was with Baraga of Marquette at Ishpeming with the Hematites winning 345 to 367. A return match at Marquette was another victory for the Hematites, 342 to 346.

The first Great Lakes Conference meet was held at Ishpeming on May 29th with seven teams competing. The Ishpeming team won first place with a team total of 337. Manistique was second with 372.

The U.P. tournament was held at Menominee with 18 teams competing. Ishpeming placed second with 342, two strokes behind Iron Mountain.

Individual Scores and Meet

	Manistique –	Baraga –	Baraga –	Great Lakes –	U.P. Tourney
James Olson	78	79	75	85	82
Garrett Leffler	80	79	88	76	83
Mike Archibald		90	88	87	87
Silas Clements	88	94	94	89	90
David Gadomski	96

ISHPEMING HIGH SCHOOL CALENDAR
1964–1965

AUGUST	17	Football Practice begins. Do we smell liniment in the air?
SEPTEMBER	8	We discovered that we have a new freshman this first day. Is his name "Freshman" or C. C. Watson?
	9	What are the noises in the Senior English Room ceiling? Mr. Renz thinks it's his radiator pipes. We think it's his past haunting him.
	10	The freshmen had their traditional meeting with Mr. Dishnow. We certainly hope that they become adjusted to our School.
	16	Today the Champion Sparkplug Company presented an assembly to make us safer drivers. Could the rising costs of insurance that Mom and Dad pay for us be one of the reasons?
	18	The officers for each class were selected today. We were sure we saw some of the underclassman prexies directing traffic during the fire drill.
	19	Hooray! The Blue and White came through with their first football win. (Against Gwinn).
	21	The Faculty was again responsible for the collection of assembly fees. Bet they get tired of hearing "Oh, I forgot!"
	22	Speaking of assemblies! Jack Benson, Fritz Ameen, Tom Gauthier, and Alan Gaboury acted the parts of "Hunters" in one today. And they had real guns, too. Maybe they weren't loaded!
	24	The Frosh looked rather glassy-eyed from their DAT's. Cheer up! We all got 'em, and we lost our stiff necks.
	25	Our trusty Mrs. L. got the Pep Club together for a rousing Pep Meeting today. Maybe if we yelled a little louder the boys would have pulled a win.
	27	Mr. Carlson did it again today in 6th period Algebra. We keep telling him! "That's Warren, not Michael."
	28	Our shutterbug, Mr. Homburg, was taking underclassmen pictures today. "But Mr. Homburg, I'll break the camera!"
OCTOBER	1	The Oldtimers entertained the Frosh girls at the annual Tea. The Seniors were guilty of the skit presented. Our advisor was responsible, too.
	2	Failure notices. Oh-oh!
	3	We downed arch-rival Negaunee. Happy day!
	8-9	MEA meetings. Well, Faculty, the students were happy anyway.
	10	After considerable running around, and much gossip, the Homecoming floats were launched. Congratulations, Juniors!

	15	We found out today at our assembly that GM is working on a way to eliminate parallel parking. We are all for it!
	29	We went wild about Harry (John Brown) and The Milwaukee Symphony Orchestra. It was just too marvelous for words.
	30	One Senior gentleman was seen wandering about the Senior Carnival bemoaning his empty wallet. "I knew I should have stopped with one penny-pitch, but it was such fun." Certain members of the faculty exhibited heretofore unknown terpsichorean talents. Just as quick on the dance-floor as on the typewriter!
NOVEMBER	6	Certain members of the Junior class were borrowing liniment from the football team for their Olympic. We wonder if they could give any pointers to the U.S. Olympic team?
	9	Into every life some rain must fall. Report Cards today. We did have a very entertaining assembly on puppets.
	13	We guess Friday the 13th is our lucky day. The Senior Class play "Father Was A Housewife" was a sell-out.
	20	First basketball game. Hey, we won.
	26	At last! Thanksgiving Vacation.
DECEMBER	7	Today Mr. Lehmann asked a certain dark lady in his 2nd period Econ class what happened on this date twenty-three years ago. "We bombed Pearl Harbor." No that wasn't quite it. So she corrected herself. It seems the Germans bombed Pearl Harbor! Oh, Fran!
	15	Mr. Renz asked Bill Kindstrand to describe a hexnut. "It's a six sided nut!" Sure would hate to meet one socially.
	20	The Christmas Concert was presented by the Music Department.
	22	So much today. First the Christmas play. Bet it was the first time that Robin swept the floor! Next we went to the mixer, and a basketball game that evening.
	23	Christmas vacation began. Whoopee!
JANUARY	4	Classes resume. Blue Monday!
	13	"Mr. Carlson, please. It's Warren not Michael."
	18	Examination began. Guess we should have crammed after all!
	25	Report cards were issued. Why do they have to keep us in suspense until 4th period?
FEBRUARY	3	The Seniors took tests to determine if the school taught them properly. Isn't it nice to know they did?
	11	The members of the National Honor Society were entertained by the Faculty at a tea today. Our Mr. Renz officiated at the dishes.
	16	The band and orchestra entertained us with their annual Mid-winter Concert.

	26	The Frosh-Soph Party was held this evening. There were some strange goings-on. Seems that Mr. D. was in Jail?!
MARCH	2	The District Tournaments began today. Turns out we have a pretty good team, how 'bout it Fans?
	22	We were presented with an educational program on chemistry today. Some Juniors were observed taking notes. Something about "It's for Lab."
	30	Again we received our "Valentines." Some good, and some resolutions made.
APRIL	13	The mixed chorus presented their Easter Cantata. We wish to thank them for their fitting contribution to the Easter season.
	16	Easter vacation began. It should have come sooner!
	26	Back to school. Only seven more weeks!
	27	Mr. Carlson has acute spring fever! "Louie, Mr. C., not Leo."
	30	The junior prom committee presented a "Fantasy of the Sea." Sure hope those long dresses didn't get wet.
MAY	3	A certain elect group was seen wandering down the Auditorium chanting "Left, right. Left, right." The Seniors, we guess?
	6	The students ran the municipal government today. No tickets, no taxes -- and then we woke up.
	18	A note of spring was struck in our over-long winter with The Annual Spring Concert.
	27	Miss Kinsman and Miss Johnston presented the Style Show in the Home Economics Department.
JUNE	2	The people who have worked for our school received their awards today. Mr. Dishnow got 25%. Actually, though, we were most pleased to see all those who worked so hard get their deserts.
	4	A few last-minute crammers were seen in the study hall. We were part of that scenery.
	9	The usual Class Night madness.
	11	Commencement. Tears and Joy.

OUR ACTIVITIES

Band – "That was the concert that was."

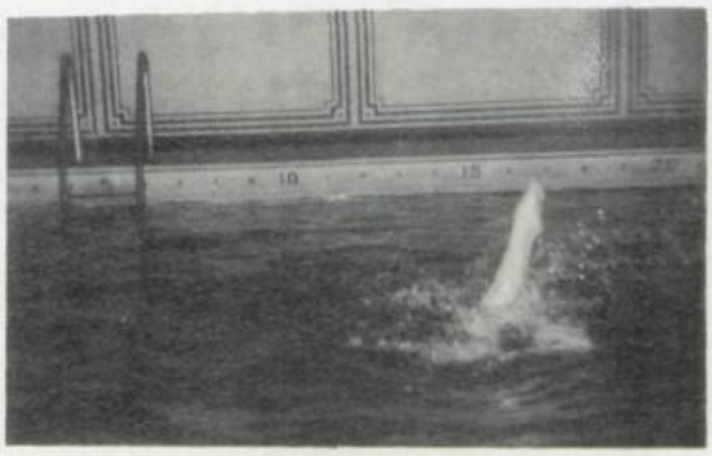
F.T.A. – "I guess we have a lot to learn."

Water Ballet – "Who'll be first to break the ice?"

Annual Board – Betcha thought this book got together all by itself.

Annual Board – What, me worry?

Modern Language Club – Guess we're not the only ones in the publishing business!



Whatever happened to Baby Jane?

Now we know!

LIGHT FOR FREEDOM

POWER FOR PROGRESS

Today all of us know the ease and comfort that Reddy Kilowatt, our Electric servant, brings to every home in this age of Electrical Living! Tomorrow holds an even greater promise of new miracles through electricity. Reddy will serve in ways undreamed of now to bring new comfort, new leisure to America's families.
